

Instant / Mock Crème Mix

You will need:

200g Instant Crème Mix

300ml Chilled water

Place ingredients into mixing bowl and blend on low speed for 20 seconds. Scrape down bowl and blend on high speed for 5-8 minutes.

Notes:

Chilled water gives best results

The water quantity can be dropped to 250ml to make a thicker crème

Ingredients: Whipping agent (glucose, vegetable oil, emulsifier (472a), milk solids), Sugar, Maize starch.
