

WHIP N ICE (Bakels)

This product keeps until the date shown on carton when frozen and lasts 2 days in fridge prior to whipping. After whipping, it lasts five days at room temperature or a week in the fridge (ice your cake ahead of time!) You can freeze your finished cake if desired. Add colour just before peaks are firm.

Whisk until firm peaks form. This should triple its volume. Be careful not to **over whip**.

This is suitable for piping, however if you want a softer texture up to 25% water can be added. ie to 300ml use 75ml water
